# JUAN CAMILO PEÑA MARÍN

## SOFTWARE ENGINEER

📞 (+34) 689322685    🌐 My Web page    ✉ juaancamilo0101@outlook.com

## PROFESSIONAL PROFILE

I am a passionate and dedicated programmer, specialized in software development with outstanding experience in PHP with Laravel, Java and JavaScript. My ability to work both on individual projects and in collaborative teams has been demonstrated in various projects. I am known for my intelligence and organization, as well as my ability to establish strong interpersonal relationships. My ability to adapt allows me to quickly integrate into new environments and contribute effectively to the achievement of work objectives.

## WORK EXPERIENCE

**COFFEE PARK**
**Software Developer (Internship)**
**September 2023-2024**

Functions performed:
- Perform extensive testing to ensure software quality
- Collaborate with a team of software engineers to deliver projects on time and on budget.

Achievements obtained:
- I developed a hiring module for human management, which consists of facilitating the recruitment of people, taking into account the vacancies and the different people who apply.
- I developed and designed an interactive map using Leap Motion technology for Room 3 of the Parque del Café Museum. This map allows visitors to interactively explore the top ten producing and importing countries of Colombian coffee.

**COFFEE PARK**
**December 2022- September 2023**

Functions performed:
- Customer service in the ticket office area, guiding tourists, selling tickets and giving access to the park

## ACADEMIC TRAINING
